## A time to encounter the Living God

We will have four chapel services throughout the retreat. The worship music is led by "One Cross". Let their music lead us into the presence of God. Music helps us to focus on God and creates an atmosphere where HIS presence becomes so real.

Mitch Hedge will be sharing from the story of Samson on the theme: My Own Worst Enemy. Be attentive to what you need to take away from what he tells us.

Camp fire time has become a meaningful place to share from the deepest recesses of our hearts. Let's not make this a time for long, life stories. Rather, in this stillness let's give lots of different people time to share from their hearts. God is at work and we are encouraged as we hear from each other.

- >Relax
- >Interact with friends
- >Be sheltered from the temptations of the world for a time
- >Leave behind the pressures of school, sports and other commitments
- >Seek to hear God speak to your heart
